PROJECT 21: ELECTION

DR. ERIC CHOU

IEEE SENIOR MEMBER

Objectives

ELECTION BALLOT
COUNTING

ACTIVITY 1

Project Statement

Project Statement

- Banana Republic is holding a general election for their president.
- This country has collected a file of its citizens who has voted in a file name banana.txt.
- Each line, there is a voter's name (first name) and the candidate he/she voted for.

Project Statement

- There are three candidates:
- Money, Monkey, and Monk.
- Please cleaning the data so that each person has only one vote. If a person voted for more than one time. Please count him for the candidate that he voted for the most times. If two candidate received the same votes from this same vote. Then, count for the candidate who has the shorter name.
- Determine who is the next president of Republic of Banana.
